PRACTICE:

Look at the following 2 paragraphs. Both paragraphs give the same information, yet one is easier to follow than the other because of the use of transition signals.

Paragraph 1:

Students who come to college from high school find that at first they have a few problems. Their college is usually much bigger than their high school. The new first year student often does not know any of the student

of the higher classes. These students are not always friendly to him / her. They play tricks on him/her or tease him / her. Before he/she was one of the biggest students in his / her school; now he / she is one of the smallest. Another problem is that he / she no longer has his / her classroom. He / she has to go to a different classroom for every subject. The unfortunate student has to carry all his things with him / her. He / she is not used to this. Our first year student does not have a class teacher either.

Instead of one teacher whom he / she knows well, he / she has six or seven teachers whom he hardly knows at all. The boy or girl starting college often finds it rather strange at first.

Paragraph 2:

Students who came into college from high school find that at first they have a few problems. **The main problem** is that their college is much bigger, usually, than their high school. **Another thing** is that the new first year student often does not know any of the students of the higher classes. **As well**, these students are not always friendly to him. **Sometimes** they play tricks on him or tease him. **Another change is that** before he was one of the biggest students in his school; now he is one of the smallest.

Yet another problem is that he no longer has his own classroom. **Now** he has to go to a different classroom for every subject. **And** the unfortunate student has to carry all his things with him. He is not used to this.

Moreover, our first year student does not have a class teacher either. Instead of one teacher whom he knows well, as six or seven teachers whom he hardly knows at all. **There is no doubt that** the boy or girl starting college often finds it rather strange at first.

(moreover, therefore, for example)

Notice how the following 2 paragraphs are organized according to time.
